

ALEXANDRE GEREZ

Hello! I'm Alex, a fullstack web developer based in Paris. I enjoy to learn new technologies to build fast, beautiful and secured web apps. I develop useful platforms during my spare time so that i can practice my coding skills and make people's daily routine easier.

You can check out some of my work below and even check my latest releases on GitHub!

ALEXANDRE GEREZ

FullStack Developer

RECENT EXPERIENCES

KICKAPP - Front End React.JS, HTML, CSS / 2019 - 2020

Kick is a phone app based on the Ionic framework and Angular. My role in this project was to create from scratch the app website using React.

DiscordInvites V2 jQuery, HTML, CSS / 2019

DiscordInvites is a discord server advertising website.

I was hired to rewrite from scratch the entire website front end using jQuery and native html, css.

I do not have the permissions to make the source code public.

QuickGameFinder Electron.JS, Node.JS, HTML, CSS / 2019

QuickGameFinder is an Electron.JS based platform designed for gamers.

I built this project in my spare time so that players never have to stay in the random matchmaking systems of games and choose their team before starting a game.

MineMonitor Electron.JS, Node.JS, HTML, CSS / 2019

MineMonitor is an Electron.JS based software i created in my spare time so that game servers owner can monitor in realtime their server activity.
